

MYGRATE

GROUPWISE TO GOOGLE MIGRATION

MyGrate allows you to easily migrate your Novell GroupWise mail, calendar and contacts to Google Apps Premier and Education editions.

EASY MIGRATION FROM NOVELL GROUPWISE TO GOOGLE APPS

MyGrate allows you to easily migrate your Novell GroupWise mail, calendar and contacts to Google Apps Premier and Education editions.

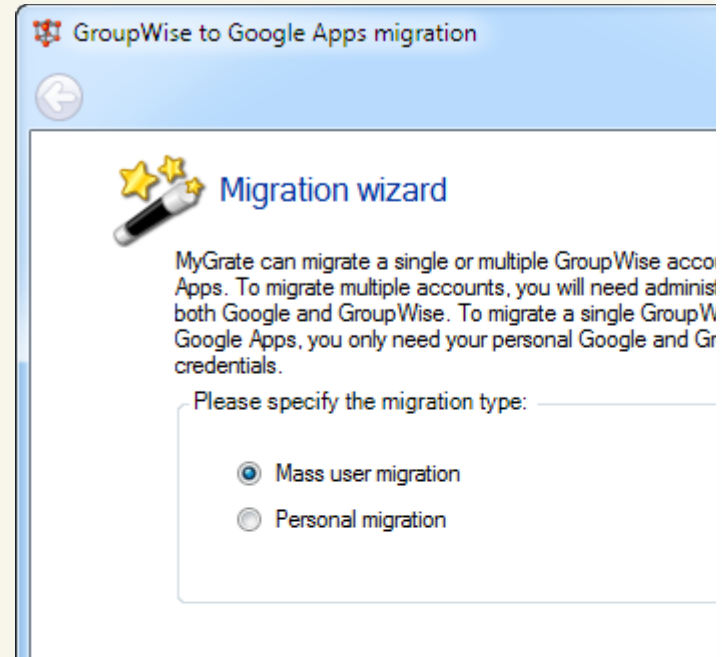

As software developers with over 30 years of combined GroupWise experience, we know how important your GroupWise data is. We also know that as soon as you have decided to switch to Google Apps, you want to migrate your data. Because that is what we did. And we can help you do the same.

MyGrate is a highly configurable tool which allows you to migrate a single GroupWise mailbox or thousands of mailboxes to Google Apps without the need for GroupWise or Google mailbox login credentials. It migrates all email, calendar items and GroupWise contacts and retains as much original GroupWise information as possible. It allows you to migrate both your 'live' GroupWise data and GroupWise personal archives.

SIMPLE, ROBUST, EASY TO USE

When you use software, you want it to be simple, robust and yet easy to use. That is exactly what we had in mind when we developed MyGrate. The entire migration preparation is wizard driven and guides you step by step through all the options which MyGrate offers.

Whether you are an end-user who wants to migrate only a single mailbox, or an administrator who is responsible for migrating thousands of mailboxes, MyGrate makes this task an easy one. Setup is only a matter of minutes and requires no external databases, servers, or changes to your GroupWise environment.

MyGrate is fully wizard driven. It guides you step by step through the entire migration process.

MyGrate is available in a 'Personal migration' version and a 'Mass migration' version.

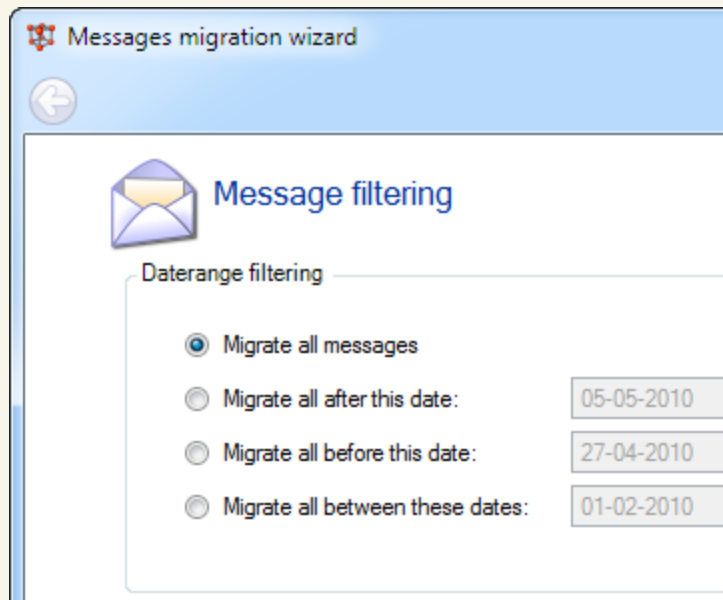

The personal version can be used to migrate only a single GroupWise mailbox and will normally be used by any end-user.

The mass version must be used to migrate multiple GroupWise mailboxes and will generally be used by administrators.

GROUPWISE TO GOOGLE MIGRATION

E-MAIL MIGRATION

The easy to use wizards allow you to specify exactly what to migrate in a simple manner.

Use the wizard to specify date ranges, exclude certain attachments, convert folder names to labels, and much more.

All migration options you specify are stored for later use.

E-MAIL MIGRATION

- All incoming and outgoing folders are migrated.
- Migrate all or a subset of email messages, based on criteria like e-mail size, attachment types and size, date, etcetera.
- Optionally filter out all or specific attachment types.
- GroupWise folder names can be migrated to Google labels.
- GroupWise folder structures can be migrated to Google Apps.
- Optionally migrate (incoming) shared folders.
- Migrated e-mail messages can be assigned a custom Google label to easily identify migrated messages in Google.
- Optionally, you can replace the domain names in e-mail addresses of the original GroupWise messages with your new Google domain name. (If applicable).
- Most e-mail message settings are preserved. (Like i.e. 'read' status).
- MyGrate keeps a migration history. If you start a migration multiple times, only those messages are migrated which haven't been migrated earlier. No duplicate e-mail messages in your Google mailbox!

GROUPWISE TO GOOGLE MIGRATION

CALENDAR MIGRATION

CALENDAR MIGRATION

- Main GroupWise calendar can be migrated to Google.
- Available sub-calendars can also be migrated and will show up as Google secondary calendars.
- Migrate appointments within a certain date range.
- Migrate appointments based on type. (Personal appointments vs. meetings).
- Rights to shared calendars can be migrated to Google.
- Appointment alarms can be migrated.
- For meetings, all attendee information is kept during migration.

The easy to use wizards allow you to specify exactly what to migrate in a simple manner.

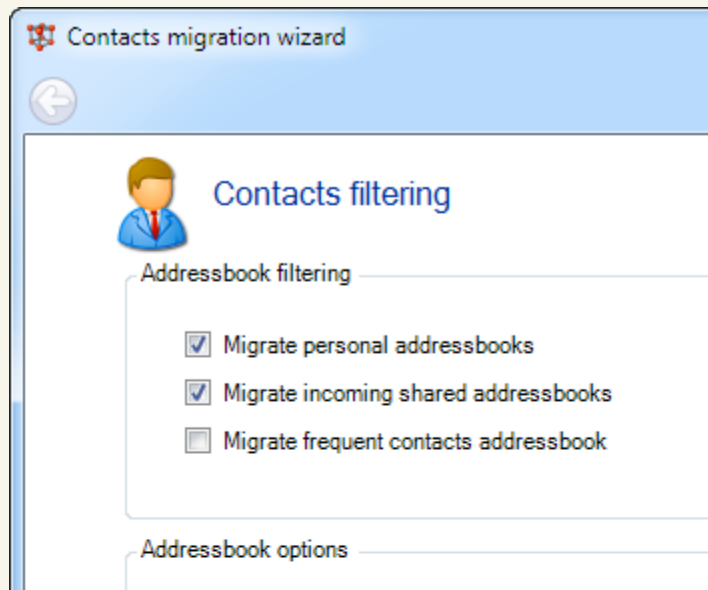

Use the wizard to specify calendar types, date ranges, migration of sharing rights, and much more.

All migration options you specify are stored for later use.

GROUPWISE TO GOOGLE MIGRATION

CONTACTS MIGRATION

The easy to use wizards allow you to specify exactly what to migrate in a simple manner.

Use the wizard to specify the address books you want to migrate, specify migration of groups and more.

All migration options you specify are stored for later use.

CONTACTS MIGRATION

- All address books can be migrated.
- Optionally migrate address books which are shared with you.
- Optionally migrate the GroupWise 'Frequent contacts' address book.
- Optionally migrate all personal groups (including their members) which have been defined.
- All address information is migrated: e-mail addresses, all telephone numbers, instant messaging addresses, website url's, postal addresses, etcetera.
- GroupWise contact information which cannot be nicely mapped to a corresponding Google field, will be put in the Google 'remark' field for the contact.
- You can even migrate contacts which have no e-mail address specified in GroupWise. (In Google, contacts MUST have an e-mail address)
